# ***Cursive Pre-Writing***

## • How to Hold a Pencil (Pen) Properly? •

1

**Position your fingers:** Place your index finger and thumb at an angle of about 90 degrees. Place the pen or pencil on the crook between these fingers, it should rest on your bent middle finger.

2

**Clamp the pencil (pen) down:** Gently hold the tool with your thumb and forefinger. Try not to squeeze too tight so that your hand remains relaxed and it doesn't hurt.

## • How to Hold a Pencil (Pen) Properly? •

3

**Pencil (Pen) position:** Hold the pencil (pen) with slightly bent fingers and your wrist relaxed. This will help you to write without tension.

4

**Comfort check:** Make sure your tool is comfortable in your hand and that your fingers are not tense. If your hand gets tired or uncomfortable quickly, try changing your finger position or angle.

***Follow these steps and  
make your writing easier! :)***
